DSS-4037EL (Rev. 9/89)

Transmittal No: 94 LCM-91

Date: July 28, 1994

Division: Office of Field
Operations

Management Support
and Quality
Improvement

TO: Local District Commissioners

SUBJECT: Teleconference on Front End Detection System - September 30,
1994

ATTACHMENTS: None

The Department recently conducted a survey to determine the issues that most interest local districts as potential subjects for future teleconferences. The survey indicated that many local districts were interested in more information on the Front End Detection System (FEDS).

The Department has scheduled a satellite teleconference on that subject beginning at 9:30 a.m. on Friday, September 30. The teleconference will highlight the best practices of some local districts that make extensive use of the FEDS program and will include information and offers of technical assistance from State staff who administer this program. Please save the date. A formal announcement with a call for registration will be sent to all local districts in the near future. If you have any questions, please contact Diane Ley of the Albany Regional Office of Field Operations at (518) 432-2489.

Nelson Weinstock
Deputy Commissioner
Division of Management Support
and Quality Improvement

William E. Gould
Director
Office of Field Operations
