

Report Identification Number: AL-14-028

Prepared by: Albany Regional Office

Issue Date: 5/15/2015

This report, prepared pursuant to section 20(5) of the Social Services Law (SSL), concerns:

- A report made to the New York Statewide Central Register of Child Abuse and Maltreatment (SCR) involving the death of a child.
- The death of a child for whom child protective services has an open case.
- The death of a child whose care and custody or custody and guardianship has been transferred to an authorized agency.
- The death of a child for whom the local department of social services has an open preventive service case.

The Office of Children and Family Services (OCFS) is mandated by section 20 of the SSL to investigate or cause for the investigation of the cause and circumstances surrounding the death, review such investigation, and prepare and issue a fatality report in regard to the categories of deaths noted above involving a child, except where a local or regional fatality review team issues a report, as authorized by law.

Such report must include: the cause of death; the identification of child protective or other services provided or actions taken regard to such child and child's family; any extraordinary or pertinent information concerning the circumstances of the child's death; whether the child or the child's family received assistance, care or services from the social services district prior to the child's death; any action or further investigation undertaken by OCFS or the social services district since the child's death; and as appropriate, recommendations for local or state administrative or policy changes.

This report contains no information that would identify the deceased child, his or her siblings, the parent, parents, or other persons legally responsible for the child, and any members of the deceased child's household.

By statute, this report will be forwarded to the social services district, chief county executive officer, chairperson of the local legislative body of the county where the child died and the social services district that had legal custody of the child, if different. Notice of the issuance of this report will be sent to the Speaker of the Assembly and the Temporary President of the Senate of the State of New York.

This report may **only** be disclosed to the public by OCFS pursuant to section 20(5) of the SSL. **It may be released by OCFS only after OCFS has determined that such disclosure is not contrary to the best interests of the deceased child's siblings or other children in the household.**

OCFS' review included an examination of actions taken by individual caseworkers and supervisors within the social services district and agencies under contract with the social services district. The observations and recommendations contained in this report reflect OCFS' assessment and the performance of these agencies.

NYS Office of Children and Family Services - Child Fatality Report

Report Type: Child Deceased
Age: 2 month(s)

Jurisdiction: Schenectady
Gender: Male

Date of Death: 09/20/2014
Initial Date OCFS Notified: 09/20/2014

Presenting Information

On September 20, 2014, an SCR report was received by Schenectady DSS stating this morning at 6:33 AM, mother found two-month-old subject child in the crib unresponsive and not breathing. Although, the child had respiratory issues, the child was otherwise healthy. The mother and father do not have a plausible explanation for the child's death.

Executive Summary

On September 20, 2014, Schenectady County DSS (SCDSS) received an SCR report alleging DOA/Fatality and Inadequate Guardianship against the mother and father regarding the subject child. Also listed on the report with an unknown role was an eighteen-month-old surviving sibling that lived in the home.

During the course of their investigation, SCDSS interviewed the mother, father and family members. SCDSS also spoke with all necessary and appropriate collateral contacts. SCDSS did not speak with the Medical examiner but they made multiple attempts to do so. During this investigation, SCDSS discovered that a surviving half-sibling did not reside in the home.

The investigation discovered the thirteen-day old subject child was hospitalized for having episodes of gasping for breath and stopped breathing which lasted for five to ten seconds. Medical examination results were negative. The hospital updated the parents on safe sleep practice upon the child's discharge. The parents interviews revealed that on 9/19/15, at approximately 3:00am, the child began to fuss and the father gave the child a bottle of formula. The father propped the bottle on a blanket and the child drank the bottle in the bassinet. After finishing the bottle, the father burped the child. The father laid the child back into the bassinet. The child was placed stomach down, on a bed pillow and with a blanket pulled up to the child's waist. At approximately 5:30/ 5:45am, the mother heard the child fussing. The mother gave the child a bottle of formula. The mother burped, changed the child's clothing and diaper and returned the child to the bassinet. The mother laid the child on the child's back in the bassinet and pulled a blanket to the child's chest. The mother removed the bed pillow from the bassinet. At approximately 6:00am, the surviving sibling woke up the mother. At approximately 6:15am, the mother went into the bedroom and found the child in the bassinet lifeless with bluish lips. A neighbor performed CPR on the child until EMS arrived and transported the child to the hospital. The child did not respond to additional lifesaving treatment and was pronounced dead at 7:45 am. The cause of death was still pending when SCDSS closed the case.

SCDSS was unable to show that any of parents actions may have caused the death of the subject child. As a result, the report was unsubstantiated and closed on November 17, 2015.

LDSS Response

On September 20, 2014, an SCR report was received by Schenectady DSS stating this morning at 6:33 AM, mother found two-month-old subject child in the crib unresponsive and not breathing. Although, the child had respiratory issues, the child was otherwise healthy. The mother and father do not have a plausible explanation for the child's death.

On the same date of the SCR report, SCDSS CPS met with the Schenectady Police Department at the scene and conducted a walk through of the family home. No safety concerns were noted regarding the family home. SCDSS along with Schenectady Police interviewed neighbors who responded to the family home to assist the parents once the subject child was discovered unresponsive.

On 6/20/14, SCDSS and Schenectady Police conducted initial interviews with the parents. The eighteen-month-old surviving sibling was observed and the sibling's safety was assessed. SCDSS made a safety plan to have the surviving sibling stay at a family member's home.

On the same day, SCDSS interviewed the attending physician at the hospital. The physician stated that the subject child arrived at the hospital at around 7:00am. The physician reported CPR was performed on scene for 45 minutes and for an additional 45 minutes at the hospital prior to pronouncing the child dead. The physician stated that the child may have aspirated-where the child vomited and choked on the vomit. The physician was not going to call in a CPS report because the physician believed there was no foul play involved as it was simply a case of SIDS.

On 6/22/14, an autopsy was performed which did not reveal the cause of death. The medical examiner was waiting for

further studies to identify the cause of death when SCDSS closed the case.

SCDSS conducted multiple home visits and stayed in contact with the family throughout the investigation. SCDSS spoke with appropriate collateral contacts and collected necessary documentation during the investigation.
