

Report Identification Number: NY-18-061

Prepared by: New York City Regional Office

Issue Date: Oct 22, 2018

This report, prepared pursuant to section 20(5) of the Social Services Law (SSL), concerns:

- A report made to the New York Statewide Central Register of Child Abuse and Maltreatment (SCR) involving the death of a child.
- The death of a child for whom child protective services has an open case.
- The death of a child whose care and custody or custody and guardianship has been transferred to an authorized agency.
- The death of a child for whom the local department of social services has an open preventive service case.

The Office of Children and Family Services (OCFS) is mandated by section 20 of the SSL to investigate or cause for the investigation of the cause and circumstances surrounding the death, review such investigation, and prepare and issue a fatality report in regard to the categories of deaths noted above involving a child, except where a local or regional fatality review team issues a report, as authorized by law.

Such report must include: the cause of death; the identification of child protective or other services provided or actions taken regard to such child and child’s family; any extraordinary or pertinent information concerning the circumstances of the child’s death; whether the child or the child’s family received assistance, care or services from the social services district prior to the child’s death; any action or further investigation undertaken by OCFS or the social services district since the child’s death; and as appropriate, recommendations for local or state administrative or policy changes.

This report contains no information that would identify the deceased child, his or her siblings, the parent, parents, or other persons legally responsible for the child, and any members of the deceased child’s household.

By statute, this report will be forwarded to the social services district, chief county executive officer, chairperson of the local legislative body of the county where the child died and the social services district that had legal custody of the child, if different. Notice of the issuance of this report will be sent to the Speaker of the Assembly and the Temporary President of the Senate of the State of New York.

This report may **only** be disclosed to the public by OCFS pursuant to section 20(5) of the SSL. **It may be released by OCFS only after OCFS has determined that such disclosure is not contrary to the best interests of the deceased child’s siblings or other children in the household.**

OCFS’ review included an examination of actions taken by individual caseworkers and supervisors within the social services district and agencies under contract with the social services district. The observations and recommendations contained in this report reflect OCFS’ assessment and the performance of these agencies.

Case Information

Report Type: Child Deceased
Age: 2 day(s)

Jurisdiction: Bronx
Gender: Male

Date of Death: 06/08/2018
Initial Date OCFS Notified: 06/11/2018

Presenting Information

The child was born on 6/6/18, prematurely at 24 weeks of gestation with a positive toxicology for marijuana with medical complications requiring further medical treatment. The child was transferred to the neonatal intensive care unit at Montefiore Medical Center.

On 6/8/18, the child died due to congenital heart disease. The child was under the care of medical staff at the time of his death.

Executive Summary

This two-day-old male child died on 6/8/18 in Montefiore Medical Center. Hospital medical staff determined the cause of death was congenital heart disease and the manner of death was natural. The child was hospitalized from his date of birth until he died on 6/8/18 and no autopsy was performed.

On 6/7/18, the SCR registered a report that alleged PD/AM of the newborn because the BM and child were positive for marijuana at the child's birth. ACS initiated the investigation and learned the child was born at 24 weeks of gestation with serious medical complications that required the child be placed in a neonatal intensive care unit. During the investigation, medical providers informed ACS that the child was born "very sick," and a heart specialist stated "there was nothing that could have been done."

On 6/7/18, ACS made contact with the SM of the report, assessed the SS, interviewed the MGM, school staff, pediatrician of the SS, and determined the SS was well cared for by the SM.

Between 6/8/18 and 8/1/18, ACS continued to obtain information from pertinent collateral contacts who had information regarding the medical condition of the child and also continued to assess the safety and quality of care provided the SS by the SM.

On 8/1/18, ACS appropriately unsubstantiated the allegation of PD/AM of the child by the SM from the 6/7/18 report and unfounded the case which remained open for services. ACS' determination narrative cited the medical information obtained during their investigation that stated the child's death was due to congenital heart disease and marijuana usage played no role in the death of the child. The SM accepted preventive services for herself and the SS in addition to intensive case management services from ACS.

LDSS Response

On 7/31/18, ACS submitted the OCFS-7065 Agency Reporting Form for Serious Injuries, Accidents or Deaths of Children in Foster Care and Deaths of Children in Open Child Protective or Preventive Cases. The information regarding the infant's death was reported to OCFS under Chapter 485 of the Laws of 2006.

This two-day-old male child was born on 6/6/18 and died on 6/8/18 in Montefiore Medical Center. Hospital medical staff determined the cause of death was due to congenital heart disease and the manner of death was natural. The child was hospitalized until he died on 6/8/18, and no autopsy was performed.

On 6/7/18, the SCR registered a report that alleged PD/AM of the newborn by the BM because she and the child were positive for marijuana at the child's birth. ACS initiated the investigation and learned the child was born at 24 weeks of gestation with serious medical complications that required the child be placed in a neonatal intensive care unit. During the investigation, medical providers informed ACS that the child was born "very sick," and a heart specialist stated "there was nothing that could have been done."

On 6/7/18, ACS made contact with the SM, assessed the SS and interviewed the MGM.

Between 6/8/18 and 8/1/18, ACS continued to obtain pertinent information from collateral contacts such as school staff, the pediatrician of the SS and hospital medical staff who had information regarding the medical condition of the child and the quality of care provided the SS by the SM. Based on the information obtained ACS determined the SS was well cared for by the SM.

On 8/1/18, ACS appropriately unsubstantiated the allegation of PD/AM of the child by the SM from the 7/7/18 report and unfounded the case which remained open for services. ACS' determination narrative cited the medical information obtained during their investigation that stated the child's death was due to congenital heart disease and marijuana usage played no role in the death of the child. The SM accepted preventive services for herself and the SS in addition to intensive case management services from ACS.

Report Summary:

The SCR registered a report the SM and SC were positive for marijuana. The SC was born at 24 weeks of gestation and remained hospitalized until he expired on 6/8/18.

Report Determination: Unfounded**Date of Determination:** 08/01/2018**Basis for Determination:**

ACS determined the SM's marijuana use played no role in the SC's premature birth or subsequent death. ACS obtained information from medical providers consistently stated the SC due to from congenital heart failure.

OCFS Review Results:

ACS' determination was appropriate based on the medical information obtained. ACS documented there were no safety concerns for the five-year-old SS and services were put into place for the SS and SM.
