

Report Identification Number: SV-15-010

Prepared by: Spring Valley Regional Office

Issue Date: 8/6/2015

This report, prepared pursuant to section 20(5) of the Social Services Law (SSL), concerns:

- A report made to the New York Statewide Central Register of Child Abuse and Maltreatment (SCR) involving the death of a child.
- The death of a child for whom child protective services has an open case.
- The death of a child whose care and custody or custody and guardianship has been transferred to an authorized agency.
- The death of a child for whom the local department of social services has an open preventive service case.

The Office of Children and Family Services (OCFS) is mandated by section 20 of the SSL to investigate or cause for the investigation of the cause and circumstances surrounding the death, review such investigation, and prepare and issue a fatality report in regard to the categories of deaths noted above involving a child, except where a local or regional fatality review team issues a report, as authorized by law.

Such report must include: the cause of death; the identification of child protective or other services provided or actions taken regard to such child and child’s family; any extraordinary or pertinent information concerning the circumstances of the child’s death; whether the child or the child’s family received assistance, care or services from the social services district prior to the child’s death; any action or further investigation undertaken by OCFS or the social services district since the child’s death; and as appropriate, recommendations for local or state administrative or policy changes.

This report contains no information that would identify the deceased child, his or her siblings, the parent, parents, or other persons legally responsible for the child, and any members of the deceased child’s household.

By statute, this report will be forwarded to the social services district, chief county executive officer, chairperson of the local legislative body of the county where the child died and the social services district that had legal custody of the child, if different. Notice of the issuance of this report will be sent to the Speaker of the Assembly and the Temporary President of the Senate of the State of New York.

This report may **only** be disclosed to the public by OCFS pursuant to section 20(5) of the SSL. **It may be released by OCFS only after OCFS has determined that such disclosure is not contrary to the best interests of the deceased child’s siblings or other children in the household.**

OCFS’ review included an examination of actions taken by individual caseworkers and supervisors within the social services district and agencies under contract with the social services district. The observations and recommendations contained in this report reflect OCFS’ assessment and the performance of these agencies.

Gender: Female

Date of Death: 02/13/2015
Initial Date OCFS Notified: 02/18/2015

Presenting Information

A report was made to the New York Statewide Central Register of Child Abuse and Maltreatment (SCR) on 02/13/2015, which alleged Inadequate Guardianship, and DOA/Fatality against the mother, on behalf of the one-month-old, female subject child. This report alleged the mother found the subject child unresponsive in her bassinet, and called for medical assistance. EMS arrived and transported the subject child to the hospital. The subject child was noted to have been otherwise healthy, with no pre-existing conditions, and the mother did not provide an explanation as to how the subject child died. As per the report, an autopsy was not completed.

Executive Summary

Rockland County Department of Social Services (RCDSS) conducted an investigation into the allegations of the 2/13/15 SCR report and coordinated their investigation with law enforcement. Appropriate collateral contacts were made, and pertinent information was obtained.

RCDSS' investigation revealed evidence to support the parents adequately cared for the subject child and the surviving sibling. RCDSS discovered the mother noticed the subject child was not responding to her on the afternoon of the incident. The mother contacted the Hatzolah (a volunteer EMS service) who immediately responded to the case address. The Hatzolah attempted to resuscitate the subject child and then transported her to the hospital to continue resuscitation efforts. The subject child was pronounced dead at the hospital. The emergency room X-ray revealed the subject child had an enlarged heart.

Within the prescribed timeframe, RCDSS visited and assessed the case address and determined the surviving sibling was safe to remain at home with his parents.

As per the case record, the subject child had stopped breathing at birth and had to be resuscitated. The subject child had also spent 5-days in the Neonatal Intensive Care Unit (NICU), prior to being discharged to go home. Additionally, the Medical Examiner noted the subject child had no visible signs of trauma or injury and observed the subject child to have a heart condition via the x-Ray that was taken at the hospital. Pediatric records also indicated no concerns in regard to the subject child nor the surviving siblings.

The family was engaged in services within the community, which included bereavement counseling, and was supported by family and friends.

On 3/24/2015, RCDSS unsubstantiated the allegations listed in the report. There was no credible evidence to support any child abuse or maltreatment. On the contrary, it was noted the mother acted appropriately in calling for assistance, as well as the subject child's medical condition at birth.

The Medical Examiner listed the cause of death was Undetermined, and local law enforcement officials were not pursuing any criminal charges.

LDSS Response

Rockland County Department of Social Services (RCDSS) conducted an investigation into the allegations of the 2/13/15 SCR report and coordinated their investigation with law enforcement. RCDSS contacted medical professionals, first responders, and family members, and made home visits to speak with the family members and assessed the surviving sibling. There were no concerns regarding the care of the subject child nor the surviving sibling. The surviving sibling remained in the care of the parents.

The mother's interview revealed the mother was particularly more attentive to the subject child on the morning of the incident because she was not nursing from her as much as she routinely did. Despite the change in feeding, the mother noticed that the subject child had regular bowel movements indicating she was not dehydrated. During the afternoon the mother noticed that the subject child was not responsive and she immediately sought medical attention.

Upon speaking with the Medical Examiner, it was learned that the subject child had no visible signs of trauma or injury. The Medical Examiner also noted the subject child had a heart condition, as was discussed with the parents and read in the hospital birth records. A chest x-ray revealed the subject child had a heart condition upon external examination. An autopsy was not performed due to religious objection by the parents. A review of the subject child's medical history noted the subject child to have stopped breathing at birth and had to be resuscitated. Because of this, the subject child spent five days in the Neonatal Intensive Care Unit (NICU), prior to being discharged to the parents care. The Medical Examiner listed the cause of death as Undetermined. Pediatric records indicated no concerns in regard to the subject child nor the

surviving sibling. The Local Law enforcement officials did not find anything during their investigation that warranted pursuing criminal charges.

All Safety Assessments as well as the Risk Assessment Profile (RAP) were appropriate, timely, and accurately reflected the known circumstances of the case. The family was in receipt of community based services, and declined Preventive Services as well as Bereavement Counseling offered by RCDSS. The allegations listed in the report were unsubstantiated by RCDSS and on 3/24/2015 and the case was closed.
