

Report Identification Number: SV-20-031

Prepared by: New York State Office of Children & Family Services

Issue Date: Dec 14, 2020

This report, prepared pursuant to section 20(5) of the Social Services Law (SSL), concerns:

- A report made to the New York Statewide Central Register of Child Abuse and Maltreatment (SCR) involving the death of a child.
- The death of a child for whom child protective services has an open case.
- The death of a child whose care and custody or custody and guardianship has been transferred to an authorized agency.
- The death of a child for whom the local department of social services has an open preventive service case.

The Office of Children and Family Services (OCFS) is mandated by section 20 of the SSL to investigate or cause for the investigation of the cause and circumstances surrounding the death, review such investigation, and prepare and issue a fatality report in regard to the categories of deaths noted above involving a child, except where a local or regional fatality review team issues a report, as authorized by law.

Such report must include: the cause of death; the identification of child protective or other services provided or actions taken regard to such child and child’s family; any extraordinary or pertinent information concerning the circumstances of the child’s death; whether the child or the child’s family received assistance, care or services from the social services district prior to the child’s death; any action or further investigation undertaken by OCFS or the social services district since the child’s death; and as appropriate, recommendations for local or state administrative or policy changes.

This report contains no information that would identify the deceased child, his or her siblings, the parent, parents, or other persons legally responsible for the child, and any members of the deceased child’s household.

By statute, this report will be forwarded to the social services district, chief county executive officer, chairperson of the local legislative body of the county where the child died and the social services district that had legal custody of the child, if different. Notice of the issuance of this report will be sent to the Speaker of the Assembly and the Temporary President of the Senate of the State of New York.

This report may **only** be disclosed to the public by OCFS pursuant to section 20(5) of the SSL. **It may be released by OCFS only after OCFS has determined that such disclosure is not contrary to the best interests of the deceased child’s siblings or other children in the household.**

OCFS’ review included an examination of actions taken by individual caseworkers and supervisors within the social services district and agencies under contract with the social services district. The observations and recommendations contained in this report reflect OCFS’ assessment and the performance of these agencies.

Case Information

Report Type: Child Deceased
Age: 8 year(s)

Jurisdiction: Nassau
Gender: Male

Date of Death: 07/21/2020
Initial Date OCFS Notified: 07/22/2020

Presenting Information

Nassau County Department of Social Services (NCDSS) received a report from the SCR alleging on 7/21/20, the 8-year-old male subject child was left unsupervised in his bedroom for 5 hours while in the care of his mother and father. During this time period, the subject child hanged himself with a rope in his bedroom closet around a low-hanging light fixture. As a result, the subject child sustained ligature marks around his neck from the rope and he died. The subject child was reported to be a hyperactive child and it was not typical for him to spend so much time in his room by himself. The parents did not check on the child during the 5 hours he was in his room alone.

Executive Summary

This fatality report concerns the death of an 8-year-old male subject that occurred on 7/21/20. A report was made to the SCR on 7/22/20 with allegations of Inadequate Guardianship, Lack of Supervision, Lacerations/Bruises/Welts, and DOA/Fatality against the child's mother and father. NCDSS received the report and investigated the child's death. An autopsy was completed; however, the official report was not yet available at the time of this writing.

At the time of the child's death, he resided with his mother, father, and 3-year-old brother. The investigation revealed on the evening of 7/21/20 at approximately 5:00 PM, the father went up to check on the child and found him hanging from a rope in his closet, attached to a light fixture. The father cut the child down with a knife while the mother called 911. Emergency services arrived and transported the child to the hospital, where he was pronounced deceased at 5:48 PM.

From the time the investigation began to the time of its closure, NCDSS met with all family members and interviewed pertinent collateral sources. It was determined the child had not shown any signs of suicidal ideation nor any concerning behaviors in the days leading up to his death. Law enforcement completed an investigation and their findings corroborated the information the parents provided to NCDSS. The sibling was observed on multiple occasions and deemed safe. The case was unfounded and closed to community-based services.

Findings Related to the CPS Investigation of the Fatality

Safety Assessment:

- **Was sufficient information gathered to make the decision recorded on the:**
 - **Approved Initial Safety Assessment?** Yes
 - **Safety assessment due at the time of determination?** Yes
- **Was the safety decision on the approved Initial Safety Assessment appropriate?** Yes

Determination:

- **Was sufficient information gathered to make determination(s) for all allegations as well as any others identified in the course of the investigation?** Yes, sufficient information was gathered to determine all allegations.

LDSS Response

On 7/22/20, NCDSS received the SCR report regarding the death of the subject child, which occurred on 7/21/20. NCDSS learned of the surviving sibling and worked promptly to assess his safety.

On 7/22/20, NCDSS visited the family home, where they were met by the mother and father. The father reported he and the subject child spent the morning gardening. The mother and subject child then ran errands, returning home around 2:00 PM. The subject child stated he was tired and went up to his room to take a nap. The parents assumed the child was tired after doing physical labor in the heat. The parents said it was not unusual for the subject child to go to his room to read for prolonged periods of time. The father went to get the child for dinner at 5:00 PM and found him hanging from a rope, in his closet. The father called for the mother to call 911 while he cut the child down with a knife. The father attempted CPR while he awaited the arrival of first responders. The parents denied any indication the subject child was suicidal or having any mental health concerns. They denied knowledge of any bullying in school, and reported he was a happy child who played sports and musical instruments.

NCDSS assessed the 3yo sibling. Due to his age and cognitive level, the child was not thoroughly interviewed. He reported knowledge his brother had passed away but did not provide further information. The sibling was assessed to be safe in the care of his parents.

Throughout the investigation, collateral sources were contacted including medical staff. Collectively, those involved with the subject child reported no concerns that he may have been suffering from mental health issues or thoughts of harming himself. Further, these sources had no concerns regarding the subject child or the sibling's care and safety. LE conducted a search of the family's computers and found 35 searches from early June of hangings. LE found no criminality in the death of the subject child, and NCDSS offered the family services in response to the fatality. There was no evidence found to support the allegations in the report; therefore, NCDSS unfounded and closed the investigation once all case objectives were met.
