

Report Identification Number: SY-14-020

Prepared by: Syracuse Regional Office

Issue Date: 5/27/2015

This report, prepared pursuant to section 20(5) of the Social Services Law (SSL), concerns:

- A report made to the New York Statewide Central Register of Child Abuse and Maltreatment (SCR) involving the death of a child.
- The death of a child for whom child protective services has an open case.
- The death of a child whose care and custody or custody and guardianship has been transferred to an authorized agency.
- The death of a child for whom the local department of social services has an open preventive service case.

The Office of Children and Family Services (OCFS) is mandated by section 20 of the SSL to investigate or cause for the investigation of the cause and circumstances surrounding the death, review such investigation, and prepare and issue a fatality report in regard to the categories of deaths noted above involving a child, except where a local or regional fatality review team issues a report, as authorized by law.

Such report must include: the cause of death; the identification of child protective or other services provided or actions taken regard to such child and child's family; any extraordinary or pertinent information concerning the circumstances of the child's death; whether the child or the child's family received assistance, care or services from the social services district prior to the child's death; any action or further investigation undertaken by OCFS or the social services district since the child's death; and as appropriate, recommendations for local or state administrative or policy changes.

This report contains no information that would identify the deceased child, his or her siblings, the parent, parents, or other persons legally responsible for the child, and any members of the deceased child's household.

By statute, this report will be forwarded to the social services district, chief county executive officer, chairperson of the local legislative body of the county where the child died and the social services district that had legal custody of the child, if different. Notice of the issuance of this report will be sent to the Speaker of the Assembly and the Temporary President of the Senate of the State of New York.

This report may **only** be disclosed to the public by OCFS pursuant to section 20(5) of the SSL. **It may be released by OCFS only after OCFS has determined that such disclosure is not contrary to the best interests of the deceased child's siblings or other children in the household.**

OCFS' review included an examination of actions taken by individual caseworkers and supervisors within the social services district and agencies under contract with the social services district. The observations and recommendations contained in this report reflect OCFS' assessment and the performance of these agencies.

Case Information

NYS Office of Children and Family Services - Child Fatality Report

Report Type: Child Deceased
Age: 2 month(s)

Jurisdiction: Oswego
Gender: Female

Date of Death: 06/27/2014
Initial Date OCFS Notified: 07/02/2014

Presenting Information

On 6/27/14, the SCR registered a report stating that the 2 month old SC passed away due to an undetermined cause. It was reported that the SC was a healthy baby with no known medical condition. The SC and BM were sleeping together in the same bed at the time of the SC's death. The BM and SC were staying with the BM's parents due to their electricity being shut off. The SC has a sibling, who was seen by the NY State Police on the scene, and "appears fine" according to the SCR report. The New York State Police were present at the scene, though no arrests were made.

Executive Summary

On 6/27/14 the SCR registered a report with allegations of DOA/Fatality and Inadequate Guardianship against the BM in this case. The BM was co-sleeping with the SC in an adult bed, and the child was found unresponsive and taken to the hospital by Emergency Responders. The SC was pronounced dead on 6/27/14 at 2 am. The autopsy report listed the cause of death as sudden unexplained infant death associated with bed sharing with an adult. The autopsy went on to list contributing factors as viral tracheobronchitis and interstitial pneumonitis. The manner of death is undetermined.

The LDSS investigation revealed that the BM slept with only the SC on the night the SC died. The BM had been provided with information about safe sleep practices and was discouraged from sleeping with the SC. The BF in this case was identified during the investigation, but was not living with the SC and BM, and not present the night of the SC's death.

The LDSS CW was able to evaluate the SC's sleeping environment and interviewed the BM on a few occasions about following safe sleep practices with the surviving sibling. The investigation concluded that although there was a pillow in the bed, it was inconclusive on whether or not it was near the SC. Additionally, the blanket was covered to the SC's hips and she was placed to sleep on her back in a full sized bed. The LDSS CW found that the BM and SC were sleeping in a full sized bed, and the BM had put the SC to sleep on her back. The SC was found by the BM in distress, still on her back. The CW observed the surviving sibling's sleep environment and found it to be safe.

There was a presence of viral tracheobronchitis and interstitial pneumonitis, and the investigation found that the SC had a runny nose, at the time of the SC's death, however, the ME was not able to establish a link between lack of medical care, or a pre-existing medical condition and the SC's death. The case was opened for preventive services to assist the BM with obtaining routine medical care for the surviving sibling, and assist with finding housing.

The allegations of DOA/Fatality and Inadequate Guardianship were determined to be unfounded for the BM. It was determined that though co-sleeping with the SC, there were no identified aggravating factors that would constitute maltreatment by the BM. The ME was unable to conclude that bed sharing resulted in the fatality.

Findings Related to the CPS Investigation of the Fatality

Safety Assessment:

- **Was sufficient information gathered to make the decision recorded on the:**
 - **Approved Initial Safety Assessment?**

Yes

NYS Office of Children and Family Services - Child Fatality Report

- Safety assessment due at the time of determination? Yes
- Was the safety decision on the approved Initial Safety Assessment appropriate? Yes

Determination:

- Was sufficient information gathered to make determination(s) for all allegations as well as any others identified in the course of the investigation? Yes, sufficient information was gathered to determine all allegations.
- Was the determination made by the district to unfound or indicate appropriate? Yes

Was the decision to close the case appropriate? Yes

Was casework activity commensurate with appropriate and relevant statutory or regulatory requirements? Yes

Was there sufficient documentation of supervisory consultation? Yes, the case record has detail of the consultation.

Required Actions Related to the Fatality

Are there Required Actions related to the compliance issue(s)? Yes No

Fatality-Related Information and Investigative Activities

Incident Information

Date of Death: 06/27/2014

Time of Death: 04:42 AM

Time of fatal incident, if different than time of death: Unknown

County where fatality incident occurred: OSWEGO

Was 911 or local emergency number called? Yes

Time of Call: Unknown

Did EMS to respond to the scene? Yes

At time of incident leading to death, had child used alcohol or drugs? No

Child's activity at time of incident:

- Sleeping
- Working
- Driving / Vehicle occupant
- Playing
- Eating
- Unknown
- Other

Did child have supervision at time of incident leading to death? Yes

Is the caretaker listed in the Household Composition? Yes - Caregiver

1

At time of incident supervisor was: Not impaired.

NYS Office of Children and Family Services - Child Fatality Report

Total number of deaths at incident event:

Children ages 0-18: 1

Household Composition at time of Fatality

| Household | Relationship | Role | Gender | Age |
|----------------------------|----------------|---------------------|--------|------------|
| Deceased Child's Household | Deceased Child | Alleged Victim | Female | 2 Month(s) |
| Deceased Child's Household | Grandparent | No Role | Male | 46 Year(s) |
| Deceased Child's Household | Grandparent | No Role | Male | 51 Year(s) |
| Deceased Child's Household | Mother | Alleged Perpetrator | Female | 22 Year(s) |
| Deceased Child's Household | Sibling | No Role | Male | 2 Year(s) |
| Other Household 1 | Father | No Role | Male | 19 Year(s) |

LDSS Response

The LDSS investigation revealed that the BM had co-slept with both the SC and the SC's surviving sibling, despite being provided information recommending not to do so, including with the SC on the night of the SC's death. The SC's sleep environment was observed and the LDSS was not able to conclusively determine the positioning of the pillow in relation of the SC. The LDSS followed up with the BM and the SC's surviving sibling to promote safe sleep practices with the surviving sibling.

The LDSS consulted with collateral contacts including law enforcement, medical personnel and emergency responders.

The LDSS CW also determined that the children were not up to date with routine medical care. The autopsy showed some evidence of bacteria/illness present in the SC at the time of death, however, the Medical Examiner conducting the autopsy could not make a definitive link between this and the SC's death.

The LDSS offered preventive services to the family, including Early Intervention Services to the surviving sibling. The CW also offered assistance to the BM to enroll the SC's surviving sibling with a pediatrician for well check and preventive medical care. Counseling was offered to the BM, but the BM self-referred to a local counseling center.

The BF was not residing with the BM, SC and surviving sibling at the time of the SC's death. The BF was not very cooperative with the LDSS. He did eventually begin living with the family some months after the SC's death, once the preventive services case was opened. The preventive services case remains open at the time of this report, and the LDSS continues to work with the family on the stated service needs.

Official Manner and Cause of Death

Official Manner: Undetermined

Primary Cause of Death: Undetermined if injury or medical cause

Person Declaring Official Manner and Cause of Death: Medical Examiner

Multidisciplinary Investigation/Review

NYS Office of Children and Family Services - Child Fatality Report

Was the fatality investigation conducted by a Multidisciplinary Team (MDT)? Yes

Was the fatality reviewed by an OCFS approved Child Fatality Review Team? Yes

SCR Fatality Report Summary

| Alleged Victim(s) | Alleged Perpetrator(s) | Allegation(s) | Allegation Outcome |
|---|-------------------------------------|-------------------------|--------------------|
| 014701 - Deceased Child, Female, 2 Mons | 014721 - Mother, Female, 22 Year(s) | DOA / Fatality | Unsubstantiated |
| 014701 - Deceased Child, Female, 2 Mons | 014721 - Mother, Female, 22 Year(s) | Inadequate Guardianship | Unsubstantiated |

Other, specify: Assistance with medical care and housing.

Additional information, if necessary:

The LDSS offered BM assistance obtaining safer and stable housing. They also counseled BM on and offered help with getting the SC's sibling enrolled with a pediatrician for regular well checks and preventive medical care. The preventive services case for the family remains open at this time.

Were services provided to siblings or other children in the household to address any immediate needs and support their well-being in response to the fatality? Yes

Explain:

The LDSS opened this case for Preventive Services and provided counseling around safe sleep practices for the SC's surviving sibling. The LDSS also offered the BM with further services to address the surviving sibling's need for Early Intervention Services. The LDSS also offered the BM with assistance and counseling around obtaining proper medical care for the SC's surviving sibling. The BF only recently re-entered the household, and the LDSS is working with the family in this ongoing case.

Were services provided to parent(s) and other care givers to address any immediate needs related to the fatality? Yes

Explain:

The LDSS provided casework counseling to work around the need for the mother to be educated about safe sleep. The LDSS also provided assistance and casework counseling around the issue of ensuring that the BM secured regular medical care for the SC's surviving sibling.

History Prior to the Fatality

Child Information

Did the child have a history of alleged child abuse/maltreatment? No
Was there an open CPS case with this child at the time of death? No
Was the child ever placed outside of the home prior to the death? No
Were there any siblings ever placed outside of the home prior to this child's death? No
Was the child acutely ill during the two weeks before death? No

Infants Under One Year Old

During pregnancy, mother:

- | | |
|---|--|
| <input type="checkbox"/> Had medical complications / infections | <input type="checkbox"/> Had heavy alcohol use |
| <input type="checkbox"/> Misused over-the-counter or prescription drugs | <input type="checkbox"/> Smoked tobacco |
| <input type="checkbox"/> Experienced domestic violence | <input type="checkbox"/> Used illicit drugs |
| <input checked="" type="checkbox"/> Was not noted in the case record to have any of the issues listed | |

Infant was born:

- | | |
|--|---|
| <input type="checkbox"/> Drug exposed | <input type="checkbox"/> With fetal alcohol effects or syndrome |
| <input checked="" type="checkbox"/> With neither of the issues listed noted in case record | |

CPS - Investigative History Three Years Prior to the Fatality

There is no CPS investigative history within three years prior to the fatality.

CPS - Investigative History More Than Three Years Prior to the Fatality

The BM was known in 7 SCR report as a child. One report was indicated with BM as a maltreated child for Inadequate Guardianship-Unsanitary Living Conditions. There are other reports listing BM as a child, but they were indicated in regard to other children in the household.

The BF was known in 10 SCR reports, as a child. They were unfounded in regard to the BF, but were indicated in regard to other children in the household.

NYS Office of Children and Family Services - Child Fatality Report

Known CPS History Outside of NYS

No known history of CPS History outside of NYS.

Services Open at the Time of the Fatality

Required Action(s)

Are there Required Actions related to compliance issues for provisions of CPS or Preventive services ?

Yes No

Preventive Services History

There is no record of Preventive Services History provided to the deceased child, the deceased child's siblings, and/or the other children residing in the deceased child's household at the time of the fatality.

Required Action(s)

Are there Required Actions related to the compliance issues for provision of Foster Care Services?

Yes No

Foster Care Placement History

There is no record of foster care placement history provided to the deceased child, the deceased child's siblings, and/or the other children residing in the deceased child's household at the time of the fatality.

Legal History Within Three Years Prior to the Fatality

Was there any legal activity within three years prior to the fatality investigation? There was no legal activity

Recommended Action(s)

Are there any recommended actions for local or state administrative or policy changes? Yes No

Are there any recommended prevention activities resulting from the review? Yes No
