OUT OF HOME PLACEMENT ADMISSIONS DATA PACKET 2021

TECHNICAL NOTES

¹ **Admissions** – A count of admissions to placement that occurred during the year. For an admission to be counted, the admission date must be on or after the first day of the year and on or before the last day of the year. A single youth can have multiple admissions during a year; therefore, figures represent admission events, not unique youth. Admissions are provided by service setting. Tables 1a - 4b provide admissions to OCFS-operated facilities (JJIS: CD_ADMISSION_TYPE = 10, New Admission), while Tables 5a - 8b provide admissions to foster care (Connections: Movement Code = M910, Child's Placement Begins). Within each service setting (i.e., OCFS Facilities vs. Foster Care) admissions are broken out by placement type:

Adolescent Offender (AO) – An Adolescent Offender is a person 16 years of age charged with a felony on or after October 1, 2018 and a person 17 years of age charged with a felony on or after October 1, 2019 (CPL 1.20 (44)). AO cases are heard in the Youth Part of the superior court for each county; however, the action may be removed to Family Court (CPL 722.23). Adolescent Offenders whose cases are removed to Family Court are no longer subject to criminal liability but may be subject to adjudication as a Juvenile Delinquent. Youth cannot be admitted to foster care settings for the purposes of an AO sentence. Adolescent Offenders who receive a definite sentence of one year or less before age 21 can serve their sentence in either a Specialized Secure Detention facility or an OCFS Secure placement facility; all other Adolescent Offenders who receive a sentence before age 21 are committed to an OCFS Secure placement facility (Penal Law § 70.20(4)(a)). The figures provided in this report do not include AOs serving their sentences in Specialized Secure Detention. For AO admissions to Specialized Secure Detention see the [detention admissions data](#) provided on the OCFS Website.

Juvenile Offender (JO) – A Juvenile Offender is a person 13 to 15 years of age charged with a serious violent felony pursuant to CPL 1.20(42). JO cases are heard in the Youth Part of the superior court for each county; however, the action may be removed to Family Court (CPL 722.20; 722.22). Juvenile Offenders whose cases are removed to Family Court are no longer subject to criminal liability but may be subject to adjudication as a Juvenile Delinquent. Youth cannot be admitted to foster care settings for the purposes of a JO sentence. JOs serve their sentences in OCFS Secure placement facilities only.

Juvenile Delinquent (JD) – A Juvenile Delinquent is a person 7 to 15 years of age who has committed an act which would be a crime if the person were criminally liable for that act. Sixteen year olds charged with a misdemeanor (except those charged under the NYS Vehicle and Traffic Law) committed on or after October 1, 2018 and 17 year olds charged with a misdemeanor (except those charged under the NYS Vehicle and Traffic Law) committed on or after October 1, 2019 are also Juvenile Delinquents (Family Court Act § 301.2(1)), along with AOs and JOs whose cases are removed to Family Court. JD cases are heard in Family Court. Adjudicated JDs can be placed in OCFS-operated facilities (typically Non-Secure and Limited Secure) or foster care settings. Please note that JDs in OCFS custody can be served in either OCFS facilities or voluntary agencies. For the purposes of this report, OCFS custody JDs served in voluntary agencies are captured as JD admissions to foster care (see Tables 6a and 6b).

Persons In Need of Supervision (PINS) – A Persons In Need of Supervision is a person under the age of 18 who does not attend school or who behaves in a way that is considered incorrigible, ungovernable or habitually disobedient and beyond the lawful control of a parent, guardian or other authority (Family Court Act Article 7). PINS also include youth who violate section 221.05 (Unlawful Possession of Marijuana) or 230.00 (Prostitution) of the NYS penal law, or who appear to be sexually exploited children. PINS cases are heard in Family Court. Adjudicated PINS can be placed in foster care settings only. Please note that this report includes post-dispositional PINS admissions only. PINS admissions related to Pre-Dispositional Placements (PDP) are not included here. For data on PDPs see the [PINS PDP data](#) provided on the OCFS Website.

Other Child Welfare – This placement type appears under the foster care section only. This category includes all admissions to foster care (Connections: Movement Code = M910, Child's Placement Begins) not captured as JD or PINS related. For the purposes of this report, admissions to foster care are identified by extracting all M910s (Child's Placement Begins) from Connections for the given year. The legal codes recorded within Connections are then used to identify which of the extracted admissions are JD or PINS related. If an admission is not captured as JD or PINS related based on the legal codes within Connections, it is counted under this Other Child Welfare category. This category primarily includes admissions related to Article 10 abuse/neglect cases, emergency removals, and voluntary surrenders.

As noted above, a single youth can have multiple admissions during a year. This is true within and across service settings and placement types. For example, a youth could be admitted as a JD to a foster care setting twice within a single year. In that case, the youth would be counted twice for the given year in Table 6a. Similarly, a youth could be admitted as a PINS to a foster care setting and as a JD to an OCFS facility within a single year. In that case, the youth would be counted once for the given year in Table 7a and once for the given year in Table 4a.

Please note that this report excludes all admissions involving Interstate and Out-of-State youth. It also excludes Parole Violator admissions to OCFS-operated facilities.

² **Percent Change** – Percent change in admissions is calculated two ways:

5 yr. – This column shows the percent change in admissions from four years ago to the current year. This percentage is calculated using the following formula: $((\text{This Year} - \text{Four Years Ago}) / \text{Four Years Ago}) * 100$

1 yr. – This column shows the percent change in admissions from last year to the current year. This percentage is calculated using the following formula: $((\text{This Year} - \text{Last Year}) / \text{Last Year}) * 100$

³ **Admission Rate per 1,000 Youth** – Admission rate per 1,000 youth population. For the purposes of this report, youth is defined as 17 years of age or younger. This rate is calculated using the following formula: $(\text{Admissions} / \text{Youth Population}) * 1,000$

The youth population data used to calculate these rates were obtained from the following source:

National Center for Health Statistics. Vintage 2019 postcensal estimates of the resident population of the United States (April 1, 2010, July 1, 2010-July 1, 2019), by year, county, single-year of age (0, 1, 2, ..., 85 years and over), bridged race, Hispanic origin, and sex. Prepared under a collaborative arrangement with the U.S. Census Bureau. Available from:

http://www.cdc.gov/nchs/nvss/bridged_race.htm as of July 9, 2020, following release by the U.S.

Census Bureau of the unbridged Vintage 2019 postcensal estimates by 5-year age group on June 25, 2020.

⁴ **Sex** – Youth's sex assigned at birth.

⁵ **Race/Ethnicity** – Youth’s race and ethnicity. The Juvenile Justice Information System (JJIS) and Connections provide two separate fields for race and ethnicity. For the purposes of this report, race and ethnicity are combined by giving ethnicity priority over race. All youth entered as Hispanic or Latino appear in the Hispanic category. The remaining youth are classified based on race. If multiple races are selected, youth are categorized into single race categories by giving Black designations priority over all other designations, Native American/Alaskan designations priority over Asian/Pacific Islander and White designations, and Asian/Pacific Islander designations priority over White. For example, a non-Hispanic or Latino youth recorded as both Black and White would appear in the Black category, while a non-Hispanic or Latino youth recorded as both Native American and White would appear in the Native American/Alaskan category, which is captured here under Other/Unknown. The Native American/Alaskan and Asian/Pacific Islander categories are both captured under Other/Unknown for the purposes of this report due to their small counts and physical space constraints.

⁶ **Age at Admission** – Youth’s age in years as of the admission date.
